PROJECTS

KOPPEE

Team leader

KOPPEE is a coffee shop website that provides a user-friendly platform for customers to browse their menu, place orders, and reserve tables online, making the coffee shop experience more convenient and accessible.

Unsplash Api

Team Leader

Unsplash Api is an image search engine where you can search any image and download it without any copyright issue.

SKILLS

Technical skills: HTML, CSS, JavaScript, React, Node.js,

Databases: MySQL, MongoDB
Tools: Git, Jira

Web Frameworks: Express

EXPERIENCE

Intern

Aeeron Academy *Feb 2023 - Present*

I started my internship by learning about the company's products and services. I then worked on a number of projects, including developing new features for the company's website, fixing bugs, and improving the user experience.

In addition to learning technical skills, I also learned a lot about working in a team environment. I had the opportunity to work with a talented team of developers, and I learned a lot from them. I also learned how to communicate effectively with both technical and non-technical stakeholders.

EDUCATION

Full Stack Development
